Education

Bachelor of Technology (B. Tech) in Computer Science Expected graduation May 2027

VIT Bhopal University, Bhopal, Madhya Pradesh

Cumulative GPA: 8.81/10

12th Standard (CBSE) March 2023

Delhi Public School Harni Vadodara, Gujarat

CBSE Cumulative GPA: 8.24/10

10th Standard (CBSE)

Delhi Public School Harni Vadodara, Gujarat March 2021

CBSE Cumulative GPA: 9.4/10

Experience

SDE Intern, L&T Technology and Services – Vadodara, Gujarat, India April 2025 – June 2025

- Built a full-stack carbon emission tracking platform using **ASP.NET (C#)** and **Angular**, enabling both enterprise and personal users to monitor and reduce their carbon footprints.
- Implemented **data-driven analytics** and **recommendation algorithms** that personalized emission-reduction strategies based on usage patterns.
- Led the design of backend APIs and integrated real-time reporting dashboards, improving visibility into carbon metrics.
- The tool enabled partner organizations to cut emissions by **15–20%**, directly supporting sustainability goals and ESG compliance.

Projects

Parkinson's Patient Care App **anshika-singh002/ParXon**

- Built an Android healthcare app using **Java, XML, Firebase**, and **MySQL (XAMPP)** to assist Parkinson's patients with stage-specific support features like **AI-driven voice navigation**, motivational cues, and personalized exercise plans.
- Enhanced patient engagement by **40%** through animated exercise routines and **real-time notifications**, improving both patient adherence and caregiver responsiveness.
- Enabled caregivers to **track patient progress**, receive stage-based alerts, and monitor activity logs—facilitating timely interventions and better remote care.

Technologies

Languages: C++, C, Java, C#, SQL, JavaScript, HTML, CSS, Python, XML

Technologies: .NET, Microsoft SQL Server, Android Studio, XAMPP, Firebase, Angular

Extracurricular

Core member at VIT Blockchain Club May 2024 - Present

- Conducted blockchain related workshops
- Deployed smart contracts, Certificate

Actively participated in Changemakers Workshop by Enactus, IIT Delhi

- Crowdfunding member for COVID Frontline Workers, Certificate

Participated in Git and GitHub Workshop

- Learnt version control via Git and GitHub and implemented in projects, Certificate

Achievements

Active participant in coding contests

- On platforms: Codeforces (Rating: **836**), CodeChef (Rating: **1107**), GeeksforGeeks (Rating: **1460**) and LeetCode (Rating: **1413**).

Completed the #100DaysOfCode Challenge & GFG160 Challenge on LinkedIn

- Tackled DSA problems, LinkedIn

Reached to the final level of John Hopkins University Health Hackathon

- Developed a Parkinson's Patient Care Android App, GitHub Repository

Courses

- AIML Course Completion, VIT Bhopal University, 2024, Certificate
- AIML Project completion, Indian Institute of Technology, Kanpur, 2024, Certificate
- Geodata Processing using Python IIRS, ISRO, 2024, Certificate

Languages and Interests

- Hindi, Japanese, English, Gujarati
- Competitive Programming
