EDUCATION

VIT Bhopal University

Bachelor of Technology (B. Tech) in **Computer Science**

Cumulative GPA: 8.66/10

Bhopal, Madhya Pradesh
Sep 2023 – May 2027 (Expected)

EXPERIENCE

SDE Internship

L&T Technology and Services

April 2025 – June 2025

Vadodara, Gujarat, India

- Developed a **full-stack** carbon management platform using **ASP.NET Core (C sharp)**, **Angular**, and **SQL Server** to simplify emissions tracking and strategic energy planning.
- Engineered a secure Web API with **JWT token-based** authentication to calculate and analyze an organization's **total carbon footprint** across different scopes.
- Delivered a **dynamic user dashboard** that visualizes carbon metrics and models the impact of **alternative energy sources**, enabling organizations to **reduce emissions** by **15-20%** and support ESG reporting.

SDE Co-op Internship

AlgoUniversity

July 2025 – October 2025

Github

- Engineered a scalable **Online Judge** (OJ) platform using the **MERN** stack (MongoDB, Express.js, React, Node.js) to create an engaging and personalized environment for **competitive programming**.
- Implemented key **features** including **coding contests**, **practice questions**, **user dashboards**, and a multi-language **ranking system** to support a wide range of coding activities.
- Utilized **Docker and DevOps** principles to **deploy** a highly available application on **AWS**, resulting in a reliable platform that empowers developers to improve their coding skills efficiently.

PROJECTS

Parkinson's Patient Care App

Github

Full-stack Android Application

- Built and developed 'ParXon', a **full-stack Android application** using **Java**, **XML**, and **Firebase** to improve exercise adherence and remote care for Parkinson's patients.
- Engineered patient-centric features including **stage specific animated** exercises, **AI-powered voice navigation**, and integrated **cognitive games** to boost motivation.
- Facilitated **remote monitoring** for caregivers via a **real-time** dashboard, activity **logs**, and automated **notifications**, resulting in a **40%** increase in patient exercise engagement.

SKILLS

Languages: C++, C, **Java**, C#, SQL, JavaScript, HTML, CSS, Python, XML

Frameworks/Tools: .NET Core Web API, Microsoft SQL Server, Android Studio, Firebase, Angular, **MERN**, Git, Github, Docker, **AWS**

ACHIEVEMENTS / CERTIFICATES

- * Certified in **Google IT Support** and **AWS** Technical Essentials Course (Credly Badges).
- * Led my team and reached the **final** amongst 150 teams level of **John Hopkins University** Health Hackathon.
- * Active participant in coding contests On platforms: **Codeforces** (Rating: 918), **CodeChef** (Rating: 1217), **GeeksforGeeks** (Rating: 1460) and **LeetCode** (Rating: 1413).
- * Certified in **AWS**, **AIML**, Industrial Markets and **IoT**, **Agile** and Scrum.
